

NURSERY

OBJECTIVES AND GOALS OF PRE-PRIMARY AGE GROUP

Introduction

Children of this new generation are curious, pro-active and full of energy. The objectives of teaching children at the earliest stage are :

- To channelist their ability through playway methods.
- To help the children to learn and recognise the basic movements of handwriting so that they are able to form English and Hindi akshar easily.
- To develop co-ordination and strength of fingers through gross motor skills like tracing and drawing.
- To develop their mental capacity and increase their interest in studies.
- To develop self-confidence by involving the students in various group and individual activities like rhymes and action song in a creative manner.

Thus promoting the child's social, intellectual, physical, emotional and moral development by providing a safe, secure and caring environment.
